DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

A. Wherein the two cavities are parallel

B. Wherein the two cavities are not parallel

The species are independent or distinct because they are not obvious over one another in the art.

2. Newly submitted claims 15-26 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: new claims are directed to above mentioned species B.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 15-26 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

3. Claims 1-7 are allowed.

4. Regarding claim 1, the prior art does not teach or make obvious the use of

- wherein said resonant cavities are formed at least in a passive waveguide which is placed below said active waveguide on respective sides of the longitudinal sides of said active waveguide.

within the context of claim 1 taken as a whole.

Conclusion

5. The prior art which is cited but not relied upon is considered pertinent to applicant's disclosure.
